PRODUCT GUIDE 2026

GRIPMAX TYRES

GRIPMAX has developed into a technologically advanced and internationally trusted tyre brand.

Every GRIPMAX tyre is characterised by innovative design and high-quality precision engineering, manufactured using first-class materials and the most advanced technologies and production processes.

GRIPMAX is driven by a strong focus on quality and innovation.

The range is continually expanded and production techniques are constantly optimised to ensure that every tyre meets the highest standards in terms of performance, durability and safety. Thanks to strict quality controls and continuous technological progress, GRIPMAX remains a leading player within the industry.

GRIPMAX stands for reliable tyre solutions for both on-road and off-road applications;

you are sure to find customised solutions in our portfolio. Our products not only meet customer expectations, but exceed them time and time again. With a forward-thinking vision, we continue to respond to market developments in the automotive sector.

THE TYRE YOU CAN RELY ON

PCR

Gripmax passenger car tyres are developed for modern vehicles and a wide range of driving styles. From everyday traffic to more dynamic use, with a focus on grip, control and stable performance. Within this segment, Gripmax offers summer, all-season and winter patterns that suit different usage conditions. Designed for reliable handling and a confident driving feel.

SUV

Gripmax SUV tyres are designed for vehicles with a higher profile and more power. The construction focuses on stability at higher speeds and controlled handling under load. Within this segment, Gripmax combines a strong visual presence with technical support for heavier vehicles. Suitable for modern SUVs and crossovers that place higher demands on their tyres.

4X4

Gripmax 4x4 tyres are developed for vehicles that keep going where the road ends. They focus on grip, traction and control when surfaces change. From versatile all-terrain patterns to more aggressive mud-terrain designs, Gripmax develops tyres with a strong character and a functional design.

VAN

Gripmax VAN tyres are developed for vehicles used on a daily basis and often carrying heavier loads. With a focus on load capacity, stability and controlled handling. Within this segment, Gripmax offers summer and all-season patterns suited to intensive use. Designed to deliver reliable performance, even when more is required.

CLASSIC

Gripmax Classic tyres are developed for vehicles with history and character. For drivers who consciously choose their own style rather than following the crowd. Within this segment, classic design meets modern technology. The result is a tyre that matches the look of the vehicle and performs as expected today.

GRIPMAX SUREGRIP PRO SPORT

Ultra-high-performance summer tyre for passenger cars and SUVs.

FEATURES

- *Highly precise steering and stable handling*
- *Maintains good contact with the road surface*
- *Quickly disperses water for extra control*

Scan the QR code
for more information.

Available in sizes: 18" to 24"

OVERVIEW

The SureGrip Pro Sport is a latest-generation ultra-high-performance summer tyre. Developed for drivers who value speed, grip and control. The tyre delivers strong performance on both dry and wet roads, with stable and predictable handling. This creates a sporty and balanced driving experience.

GRIPMAX STATURE H/T

Summer tyre for SUVs, designed for comfort and stability.

FEATURES

- Good water drainage to reduce aquaplaning
- Comfortable and quiet handling at low and high speeds
- Stable handling during everyday use

OVERVIEW

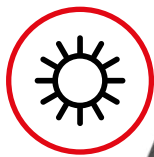

The Gripmax Stature H/T is a summer tyre for SUVs, developed to deliver a comfortable and stable ride. The tyre offers good performance on both wet and dry roads, with a tread pattern designed for control, low noise levels and everyday use.

Available in sizes: 16" to 23"

4X4

GRIPMAX INCEPTION A/T

All-season tyre for on- and off-road use.

FEATURES

- *Good performance on and off the road*
- *Long tyre life due to a wear-resistant design*
- *Reliable grip on wet and unpaved surfaces*

OVERVIEW

The Gripmax Inception A/T is an all-season tyre suitable for both on-road and off-road use. The tyre offers a good balance between comfort and performance on asphalt, with grip and control on unpaved surfaces and in changing conditions.

Scan the QR code
for more information.

Available in sizes: 15" to 20"

GRIPMAX INCEPTION A/T III

Versatile all-terrain tyre for on-road and off-road use

FEATURES

- Irregular grooves disperse mud and provide grip on any terrain
- New compound improves wet grip and reduces rolling resistance
- 3D tread blocks and reinforced sidewalls improve traction and durability, whilst reducing wear and noise

OVERVIEW

The Gripmax Inception A/T III is a versatile all-season, all-terrain tyre designed to deliver reliable performance on both tarmac and unpaved surfaces. Its irregular tread pattern effectively dispels mud and ensures optimum grip in a wide range of conditions.

Available in sizes: 15" to 20"
